CIRCULAR

Establishment of a Clean Campus Environment and Proper Waste Management Practices

This is to inform all the students, teaching staff, and non-teaching staff that our institution is committed to maintaining a clean, green, and healthy campus environment. In order to promote hygiene, environmental awareness, and responsible waste management, a clean campus and waste management initiative is hereby established with immediate effect.

All members of the college are instructed to maintain cleanliness in classrooms, laboratories, corridors, offices, and the entire campus premises. Waste materials must be disposed of only in designated dustbins, with proper segregation of biodegradable and non-biodegradable waste. Use of plastic should be minimised, and everyone is encouraged to adopt eco-friendly practices.

Regular cleanliness drives, awareness programs, and monitoring activities will be conducted to ensure active participation from all departments. Students are advised not to litter and should contribute responsibly towards preserving the beauty and hygiene of the campus.

Let us work together to create a sustainable, pollution-free, and disciplined environment that reflects the values of responsible citizenship.

Dr. TauseefKhan Pathan
Principal
